

SVENSKA
TURISTFÖRENINGEN

OUR SUSTAINABILITY PLEDGE TO YOU

The Swedish Tourist Association (STF) believes that it should be easy and inspiring to discover Sweden in a sustainable way. As a part of STF we are doing everything we can to contribute.

We sort our waste

We sort our waste for recycling, and make sure that it is easy for you as a guest to do so as well.

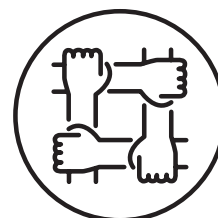

We take responsibility for our energy consumption

We use energy efficiently and choose renewable sources as far as possible.

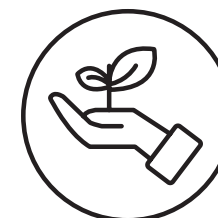

We care about our water resources

We use water economically and aim to reduce our water consumption.

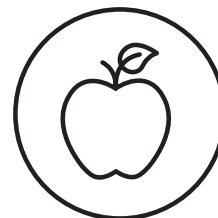

We engage with society

We are committed to our local community based on our values and on those of STF.

We help you become a sustainable guest

We are happy to inform and to help you make your stay here as sustainable as possible.

We contribute to a living countryside and a sustainable agriculture

We use products that are organic, fair trade and locally produced.

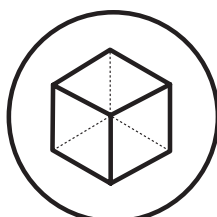

We use environment-friendly products

We avoid disposables and use solely eco-labelled cleaning products.

We take our responsibility as an employer

We pay contractual wages and we do everything in our power to create and maintain a pleasant and including work environment.

We have a holistic perspective on our business

We consider economy, environment and social aspects in every decision we make.

We follow the sustainability policy of STF

You can find the policy on the STF website.

Thank you

...for staying with us. We want to make your stay here as sustainable as possible. If you have any thoughts, concerns or ideas you are welcome to share them with us.
