Difference in altitude on a single leg, maximum 400 meter. Suitable map is Swedish mountain map BD 6, preferably the 2012 edition or newer.

The cabins... the beds are fitted with mattresses, pillows, and blankets. During the winter-season you should bring a sleeping bag, a light summer sleeping bag will do fine. The cabins have a basic standard but there is no electricity or running water. We all help each other with the domestic duties, cleaning, cooking, do the dishes etc. Wooden fires or gas heats the cabins. The cooking is done on gas-stoves. If you bring electronics that you want to charge, bring a power bank.

The cabins you will visit during this ski tour have 20-78 beds. (Rooms with 4-10 beds, male/female mixed) There are also extra mattresses and blankets in case the cabin gets full. Everyone will get shelter, if all the beds are occupied you will get a space on the floor and a mattress. You cannot book beds in advance.

The midnight sun does not shine until late spring. The nights are still dark in March and April. Therefore, bring a small torch or a headlamp.

There are only emergency-telephones in the cabins. The phone is directly connected to the police. Mobile phones will not work out in the mountains.

Food for sale...in Abiskojaure, Alesjaure and Sälka you will find small shops where you can buy dried and canned food, drinks, and snacks etc. There is no fresh food for sale in the mountain-cabins

Equipment...In this document you will find a proposal on what to bring for the tour, pack light! Most people bring too much. The weight of your backpack should not exceed 10-14 kg during a ski tour between cabins. You will add another 2-3 kg to your packing with food and common safety equipment. The pharmacy has toiletries in travel size, choose the smallest and easiest.

Liquid... It is essential to keep a good liquid-balance, if you do not, you will feel tired and sluggish. Beside a thermos for warm drinks, bring a bottle and a mug. A good advice is to put your water bottle in an extra sock or glove in your packing, to keep it from freezing.
