

Abisko – Panoramic hike on Mt. Nuolja

This is a hike with extraordinary views. After riding the chairlift up on Mt. Nuolja, we hike back down a nice and easy slope.

On the way down we get a panoramic view of the surrounding mountains and we experience different growth zones as we walk from the tundra above the tree line, down through the birch forest to the Abiskojåkka canyon. This is a hike that gives you all different aspects of the Swedish mountain hiking experience, on just 10 km. If you happen to have an interest in flowers and plants this is the perfect hike for you, Mt. Nuolja has a very rich flora, and some very rare flowers.

The hike is 10 km in total, and since we start by riding the chairlift, there is a vertical drop of 500 meters. The path is often wet, so we recommend that you do this hike in hiking boots.
