

Abisko – Snowshoe Hike

Snowshoe hiking is an excellent way of experiencing the winter landscape in Abisko National Park. You are sure to have a great and memorable experience. Variations in the mountain terrain, from birch tree forest to wide open white expanses of sunlit snow make an impact on both body and soul.

Snowshoeing equipment is easy to use and, as soon as we have put our snowshoes on, we are off. With snowshoes under your feet, you move easily over pristine snow. We tread lightly across snow-covered ground towards an opening in the birchwood forest. Suddenly mountain scenery becomes visible from a completely new perspective, a long valley framed by beautiful mountain tops, dressed in white. We pause for a while to take in the view. Continuing onwards we may change direction to follow the tracks of wild animals in the national park. After we have enjoyed a light snack and a hot beverage (a classic Swedish “fika”) we make our way back to the station.
