

## Abisko - STF Aurora Sky Station Northern Light Dinner

### Dine in an unmatched setting

At 900 meters above sea level, we serve a dinner with a taste of Lapland and Nordic cuisine. We offer selected wine packages, beer, or non-alcoholic drinks to complement your dinner. Everything is transported up to the STF Aurora Sky Station the same way as you are – with a two kilometer long chairlift ride through the silence up on Mt. Nuolja. Important information
<p>If STF Aurora Sky Station needs to be closed for safety reasons due to weather conditions, such as strong winds or cold temperatures, a specially arranged event called the Aurora Lounge will be carried out. The Aurora Lounge takes place in the lower area of Abisko National Park, where the weather doesn't have the same impact as it does up on the mountain. The decision regarding the Aurora Lounge will be made no later than the start time of the activity. All affected guests will be contacted as soon as a decision about the Aurora Lounge is made.</p> <p>When booking any of our products at STF Aurora Sky Station, we cannot guarantee that you will see the Northern Lights as it is a natural phenomenon. However, if you stay with us, you have very good chances of seeing the Northern Lights due to the cloud conditions that characterize Abisko, also known as "the blue hole."</p> <p><b>Aurora Lounge</b> The Northern Lights dinner is served in our wood-heated lavvu-tent (gohti) or equivalent alternative, located in the lower area of Abisko National Park. After dinner, you can join your guide for a short walk in the northern part of the national park to learn about its history, gain knowledge, and receive tips on the Northern Lights. Later in the evening, warm drinks and local snacks will be served in the lavvu-tent, and the guide will be happy to provide more information about the surrounding area, the Northern Lights, and the history of Abisko.</p> <p>Bookings any of STF's products at Aurora Sky Station are binding, and no refunds will be given when Aurora Lounge replaces the visit to Aurora Sky Station.</p>
